

## \$5m line charge holiday

Northpower is providing a credit on its Line Charges to all consumers connected to its Network.

### Who is eligible?

All consumers connected to Northpower's lines as at midnight 23rd February 2010 will receive a credit.

#### What is it?

Consumers connected to Northpower's lines will save a combined total of \$5 million on line charges. This amount is what Northpower would have expected to receive for maintaining and operating the lines, transformers, and poles for nearly two months. Included in this amount, Northpower is also returning a \$360,000 industry rebate to consumers.

#### When do you receive the credit?

The credit appears with the description "Northpower Line Holiday" on your March electricity account.

#### How is it done?

The amount of the credit is based on your accounts consumption over the last 12 months.

Northpower continues to do its best for consumers and Northland by providing cost effective electricity line services that are safe and reliable.

**\$145**  
credit

If your account has used more than 15,000 kWh p.a.

**\$95**  
credit

If your account has used between 2,000 - 15,000 kWh p.a.

**\$35**  
credit

If your account has used less than 2,000 kWh p.a.

*The line charge holiday is the best way Northpower can reduce your annual electricity charges.*
